- Device Management and Home Networking
- IT Platforms Suite
- Fulfillment and Assurance
- Resource Management
- Network Management

Professional Services As a CMMI-Certified services organization, NetCracker is fully committed to utilizing proven methodologies to ensure on-time, on-budget program execution. NetCracker provides an experienced solution delivery team to help with all phases of TOMS projects from the initial analysis of business objectives, to defining the business case and multi-year program roadmap, to actual delivery of the program from end-to-end and top-to-bottom, to the successful operation and maintenance of the delivered solution.

In addition, NetCracker offers a range of outsourcing and managed services for projects with differing levels of complexity — from targeted systems and operations management to enterprise-wide transformations.

Select Customers NetCracker has customers worldwide in the Service Provider, Enterprise, and Government sectors. Customers include: Claro, DISA, du, France Telecom group, Intelsat, Maxis, Mobinil, MTS, NTT Comm, NTT DOCOMO, One Communications, Sprint, Swisscom, Telstra, TELUS, Telecom NZ, TW Telecom, U.S. Army, U.S. Army National Guard, UPC Broadband, Videotron, and VimpelCom.
